

MULTIDISCIPLINARY PERIPHERAL NERVE DISORDERS

June 21, 2016 in Santander, Spain

12.00-18.30

Palacio de la Magdalena

Av. Magdalena, s/n, 39005 Santander, Cantabria, Spain

A didactic program focused on a wide variety of peripheral nerve disorders and the best options to improve diagnosis, return function, and reduce peripheral nerve pain.

OVERVIEW

This course will offer a multidisciplinary approach to understand different types of peripheral nerve disorders due to either injury or entrapment, focusing on both common and complex cases. There will be an emphasis on the best diagnostic methods and techniques to improve impaired function and reduce neuropathic pain. The course will enlist diverse specialists to enrich our understanding of optimum management and results.

CO-DIRECTORS:

DR. JOAQUIM CASAÑAS • DR. MANUEL LLUSA • DR. VICTOR MAYORAL
DR. A ISABEL FERNANDEZ CONEJERO • DR. A TURON

MAIN LECTURES:

DR. MANUEL LLUSA, MD • DR. IVICA DUCIC, MD • DR. JORDI SERRA, MD • DR. GREGORY BUNCKE, MD

MULTIDISCIPLINARY PERIPHERAL NERVE DISORDERS

COURSE OBJECTIVES

To offer a multidisciplinary approach to different types of peripheral nerve disorders due to nerve injury, entrapment syndromes and neuropathic cases. Various diagnostic methods, management options, and medical and surgical treatments will be discussed, focusing on the injured nerve and approaches to neuropathic pain. The course will encourage debate around common and complex cases with a practical methodology where neurologist, hand surgeons and pain management doctors will describe their solutions in a multidisciplinary format.

PRELIMINARY AGENDA

12.00-12.10 Introductions – Dr. Casanas

12.10-12.30 Guest Lecture: Recent Evidence-Based Advances in Peripheral Nerve Repair Algorithms – Dr. Ducic

12.30-13.30 Peripheral Nerve Entrapment – Dr. Casanas, Dr. Turon, Dr. Fernandez Conejero, Dr. Mayoral

13.30-13.40 Discussion

13.40-14.00 Guest Lecture: Nerve Transfers – Dr. Llusà

14.00-14.10 Discussion

14.10-14.30 Lunch Break

14.30-15.30 Diagnosis and Management: Acute Nerve Injuries – Dr. Llusà, Dr. Turon, Dr. Fernandez Conejero, Dr. Mayoral

15.30-15.40 Discussion

15.40-16.00 Guest Lecture: Use of Nerve Allograft in Peripheral Nerve Surgery – Dr. Buncke

16.00-16.10 Discussion

16.10-16.30 Coffee Break

16.30-17.30 Neuropathic Pain in Clinical Situation – Dr. Casanas, Dr. Sola, Dra. Fernandez Conejero, Dr. Mayoral

17.30-17.40 Discussion

17.40-18.00 Guest Lecture: What is Neuropathic Pain? – Dr. Jordi Serra

18.00-18.10 Discussion

18.10-18.15 Conclusions – Dr. Casanas

TO REGISTER

This course is open to surgeons, neurologists, and anesthesiologists focused on management of complex peripheral nerve problems. Please include your name, organization, country and event for which you are registering. Space is limited.
